

Customer needs analysis

This template provides a list of questions to help profile a customer's needs and buying behaviors. You can use it to:

- Help qualify the lead and identify the route to the key decision-makers
- Inform your sales pitch to make it clear how your solution will benefit them
- Simplify the lead's journey to purchase (According to Gartner, 77% of buyers state that their last purchase was very complex or difficult)

The examples given below are based on the analysis of a sales rep pitching video conferencing software.

[NAME OF COMPANY: Fake Belief Accounting] Customer pain points	Analysis Complete?		How can our solution support them?
Key pain point #1	Y/N	Struggling to gain market recognition	E.g. Accelerate brand awareness through more efficient touchpoints with clients
Key pain point #2	Y/N	Scalability	E.g. Allows management to confidently hand over processes to execs and focus on business growth
Key pain point #3	Y/N	High customer churn	E.g. Streamlines processes for higher client satisfaction
Are they resulting in lost revenue/lost customers?	Y/N	Yes (see report below)	
How are they currently addressing them?	Y/N	- Manual processes- Archaic software- Ineffectiveintegrations	

		- Outsourcing		
Can they continue		Yes, but inefficiently		
to operate without	Y/N	and could be losing
